

Why The Books ?

Simply, and most importantly, because I have been instructed to do so ! Someone needs to speak out and take a stand no matter the consequences as the consequences of our lack of knowledge have led to the erosion of Godly values and living. Our lack has been evil's gain. Death and destruction are not The Fruit From The Vine not the Wine of The Lord's Vineyard !

Because I wish to share the wonders of a true relationship with The Lord that surpasses all imagination and expectation I could have. To encourage new hope In Christ, In Yah'shua in a world that is quickly growing darker ! To remind everyone both believers and unbelievers that there is Still Good News ! And to clear the line that has been blurred between wisdom and foolishness...for one leads a promise of Life Eternal and the other unto spiritual death that goes well beyond our mortal fears of death !

The books are a compilation of the many writings that I have received of The Lord to write and to share with everyone in this vast place we call our world...The writings also constitute an honest, open journal from my heart that covers both the difficult and the good things. It is my hope and desire that through my honesty and transparency that others realize that they are not alone...those that suffer out in the open and those that suffer quietly as I have. In the sharing of this my walk alone, The Lord finding me and the new life that grows every day it is also my desire that people know that there is truly Hope In Christ, In Yah'shua...not merely in words but possible in a new living reality. I have seen much, pondered much, sought unceasingly and understanding...The Truth in all things ! The source of all Truth is In The Light of The Lord but we must be willing to trust that God is Good and would not hurt us...rather, we get caught in fears learned in the world that become as a deep ravine between our commitment to a full measure of belief and a full measure of faith. Instead we accept crumbs as our meal day after day when there are loaves available for us that sustain life...The Bread of Life is the sustenance of a life truly lived ! The table has always been set with our chairs waiting for us...let us not deny ourselves of the meal that is unto Life eternal for the depravity of an empty existence. I have been granted my place at the table set for me...it is set before mine enemies and I am safe in the fold of The Love of The Lord. The Lord invites *you* to His Table !

I am a part of a greater moving wheel and the spokes will be many...

My every movement is directed by The Lord. I am focused on His Truth. My hunger is and has been insatiable for the understanding brought me by The Holy Spirit. It is my experience that the world teaches us lessons opposite The Truth of God. Truth-Wisdom, Knowledge and Understanding- comes from God and is Imparted In Spirit. As Jesus was One with God so we are encouraged in The Word to become One with God Through The Son. Therein lies the Freedom. Thus our eyes and ears are opened to Truth...all things shall be revealed is the promise...seeking is the avenue. It is the eyes and the ears of the flesh that deceive us...It is the heart opened and turned towards God that hears. Open the doors to Father God's Love, Voice and Library of Truth. One must fast to the world and set aside personal will in order to begin to enter into a relationship that truly leads us to Oneness with Our Lord God. We are to gather together God's children under The Light of The Lord's Lampstand !

It is time for God's children to reach out to the Rabbi, the Teacher for their Manna-The Bread of Life, The Sustenance and The Wisdom to guide us through these perilous times into the end which is the new beginning...be ye advised that this time is near ! We must return to the ways of the honest and innocent child. How will this happen with our individual and collective histories, both current and generational, that have walked away from God The Father, The Lord preferring darkness over The Light! Is sin not running rampant among the flock ? This we cannot do alone and can only happen through knocking upon the door of The Lord...through acknowledging our need for A Messiah and The Deliverer rather than claiming deliverance in abstensia of a true reverence of God...An *honest relationship* with God ?

We are about the spiritual relationship with **Father God, The Son and His Spirit !**

The awakening is in motion...we seek to teach our brothers and sisters, God's children how to hear him by identifying all that is in our way and pointing to Yah'shua, Christ Jesus as The Only Way to this New Life that can be Eternal and Fulfilling...Filled with hope and with a steadfastness that will not bow to fear in the perilous time to come !!! We must now gather together before The Lord Our God for The Light we, and others, so desperately need...The Light Is In The Truth and He Is The Light of Truth...The Alpha and Omega...And The Lampstand !
