

# Sharing The Works Through The Well Is Deep !

The Lord Has Said These Things To Me:

**“Share freely that which I Have Shared Freely  
with you. I Want To Hear your voice...  
Speak with confidence !**

**Point The Way To Me and Me Alone !  
Ask nothing of My children but  
but that they listen and  
ponder ! “**

The Literary Writings, Musik and Art are what I Have received freely in this my walk with The Lord. This web site is the sharing freely of these many things. They were Gifts given to me that my heart is moved By His Spirit to share.

At first I was a little confused about selling vs. giving...Then the Lord explained to me that the Website is a s virtual Sanctuary that mirrors where I work on all the writings, art and music. I sell nothing to anyone in this place that has been granted me. The Lord will provide for me according to my doing His Will !

Therefore, you will not find any requests of you for donations, help, offerings or tithes in The Well Is Deep !

I did have a conflict and dilemma with publishing and selling books as it appeared to violate the principle of The Lord's Will...The Lord promptly told me that it was a commercial offering in order to reach out quickly and deeply into the world to bring forth His Will ! The beauty is that I can freely give you The Books through this site and you can freely share them with others as it is intended !

I have used the world publishing arena in order to reach as many of God's children as I can with this message of Good News and this message of hope. Both believers and un-believers need a renewal of encouragement as the world enters the day of the long night. Darkness will fall upon the earth to a depth not yet seen or known...Yet a Light Brighter will emerge that is where we are to gather...

**That Light Is The Lampstand and  
The Lampstand Is The Lord Himself !**

# Sharing The Works Through The Well Is Deep !

Please feel free to share any literary and written materials in this web site as your heart is moved to do so. There are many that cannot go into a book store or on the internet. There are many that cannot afford a meal, yet alone a book...They will need torch bearers of His Light to reach out to them personally according To The Will of The Lord!

We intend to reach the people across the earth from this roof top we have been granted. Any profits over cost of sales of books will be put back into the funnel of provision to give books away and to reach personally into the dark corners where so many of the oppressed reside...out to the neglected forgotten ones !

We ask only that you seek to hear and do that which is  
**The Good and Pleasing Will of The Father  
Through The Son Jesus Christ, Yah'shua...**

Let us remember to love one another for what we do unto  
the least of His brethren we do unto Him !

May we be pleasing in  
**His Most Holy And  
Sacred Sight**

...Amen !
