*About Commercial Offerings...*

*From The Beginning The Lord Instructed Me to remember  
to give freely what is received freely as a gift !*

*This I have done in making sure that  
the musik is made here with  
no financial drivers.*

*I produce freely, teach freely and have invested  
by faith in equipment and a variety of  
instruments for renaissance  
players use !*

*Project*

*The Lord has moved me to always freely share writings,  
art and musik according to the leading of*

***His Holy Spirit !***

*This I have done and now offer the world a  
website that freely gives what I have  
received in great abundance.*

*The Lord has also directed me to make commercial offerings.  
This is in order to proliferate the work quickly across  
the earth through the commercial sales arena...*

*To get the message out through every  
medium into every country  
very quickly as time  
is now very  
Critical.*
